PRESIDENT'S MESSAGE

President's Message

Four some fun this month, hope you can all make it out to the golf outing June 20th. Always a wonderful time, even if you are not that good of a golfer (like me).

May Recap

Another successful Manufacturer Spotlight, thanks to Deery-Pardue; even Dave Pardue blessed us with his presence. The presentation, "New Technologies for Testing Fire Protection Products by Global Vision"- by Aaron Cerny was very detailed and good. We tried not to hold it against Aaron for admitted to being a Minnesota Wild fan. The fast tap technology was interesting. This was yet another wonderful Westwood Tap event. They treat us fantastically! Good food with good friends, who could ask for anything more?

Finally, a big thank you to Deery- Pardue for sponsoring our cocktail hour! In reference to sponsoring, I wanted to thank all the firms who have went above and beyond our normal sponsorship requests to help us create the best ASPE convention ever coming up in September 2014. Without your generosity, this could not be accomplished. The Board and the Host Committee are most appreciative of your sponsorships!

Elections

Elections were held at the May meeting and we tallied all the votes (well, actually only one vote). The only position that had more than one individual on the ballot was Vice President Education. Our new VP Education is Matt Pardue, congratulations Matt. So as of July 2014, your Board of Directors are:

- President – Rick Butler
- Vice President Technical – Mark Mannarelli
- Vice President Legislative – J. Francisco DeHoyas
- Vice President Membership – April Ricketts
- Vice President Education – Matt Pardue
- Vice President Affiliate – Nevo Martelli
- Treasurer – Sean Allard
- Administrative Secretary – David Erickson
- Corresponding Secretary – Chris Sbarbaro

Reminder: Next year several of these individuals will be moving on from the board, or to new positions. If you are interested in running for a position, please let us know. It is a very rewarding experience.

Convention Delegates

Our membership at the meeting also voted on the upcoming Convention delegates, who are not Board members. The individual who were voted in were:

- Theresa Allen
- Phill Kroll
- Emily Smith
- Jeff Cochran
- Joe Ficek – Alternate
- Brandon Taylor – Alternate
- John Nieman—Alternate

Congratulations to all, I'm sure they will do a fine job representing the Chapter at the Convention. The Board members who will also be attending as delegate are myself, Mark Mannarelli, Francisco DeHoyas, April Ricketts and Sean Allard.

PRESIDENT'S MESSAGE CONTINUED...

In closing

Finally, it was a very busy meeting at Westwood and we announced several Chapter Anniversaries, continue reading to see more on this. One individual I would like to point out: **Congratulations to Ken Cutler for 40 years with the greatest chapter of ASPE!**

Things will cool down a little after the golf outing, but don't forget the **ASPE Chicago Picnic August 9th**. The Picnic committee is already hard at work to make this the best picnic ever.

CHAPTER HISTORIAN

Events

Both the product show and the golf outing have been annual event since the start of the chapter. The first outings were held at various courses. The outing was held at Villa Olivia for 4-5 years, and has been held at Hilldale Country Club the last 15 to 20 years. Through the years the Affiliates have sponsored golfers and golf holes.

Steve Triphahn does a fine job running our outing.

VICE PRESIDENT, TECHNICAL: TECHNICALLY SPEAKING

Hey, Hey, Hey,

Another year has passed and many new changes have been added to a very busy schedule for all board members.

I would like to thank the current board and all the members who have contributed this year and took time out of their busy schedules to make this the best Chapter in Society.

I am looking for Technical presenters for next year's monthly meetings. Right now all months for the 2014 calendar are currently available. Please contact me at your earliest convenience if anyone is interested in presenting. I will be at the golf outing in June, as well to discuss any upcoming presentations.

Every year the chapter awards and recognizes members who have made great achievements by providing a dedication of service throughout the years. Please see the list of members later in the newsletter who have provided continuing service on the local level as well as national levels. If anyone knows of any member who may not be aware of receiving a pin this year please let them know so they can attend and be recognized.

Remember our Third Annual Family Picnic and Pig Roast on Saturday August 9th at Schiller Woods Forest Preserve. All food and drinks, jumpy house, and music are provided. The only thing required to bring is a good time, chairs and any lawn game that you desire. All ASPE members and families are welcome! PIG ON!!! See below for more information.

Thank you,

Mark G. Mannarelli, Vice President, Technical

mmannarelli@dbHMS.com

THIRD ANNUAL ASPE FAMILY PICNIC

The Third Annual ASPE Chicago Chapter Family Picnic and Pig Roast is scheduled for Saturday, August 9, 2014 from 11AM until 4PM. The fun will take place at the Schiller Woods East, Grove #12, located at Cumberland Avenue and Irving Park Road in Chicago (same spot as last year's event).

This event is open to all ASPE members and their families as a thank you for all the support, hard work, and overall success everyone has put towards this chapter.

There will be plenty of food and beverages. Activities include a bounce house, homebrew competition, bags and much more. Bring your picnic chairs, blankets, your best homebrew and any outdoor games you love, and don't forget your family for this event.

If you are interested in entering your best brew recipe in the homebrew tasting contest, please contact Theresa Allen (TAllen@grummanbutkus.com).

If you or your company is interested in helping sponsor this event, please contact Nevo Martelli (nevomartelli@comcast.net) or John Nieman (jnieman@esdglobal.com).

And, if you have any questions or would like any additional information, please contact John Nieman (jnieman@esdglobal.com).

Come on out to network and have fun while meeting your colleagues' families.

Look forward to seeing you there.

VICE PRESIDENT, EDUCATION

I would first like to sincerely thank everyone for allowing me the opportunity to serve on the ASPE Chicago Board as the new V.P. of Education. I look forward to working with everyone in the Chicago ASPE Chapter as we continue to grow and improve our organization.

I first began attending ASPE meetings while in college at Eastern Illinois University, through attendance of those meetings I was able to learn a great deal about the plumbing industry and confirm my beliefs that it was the industry in which I wanted to begin my career. It is because of this experience that I believe one of the best ways to grow and strengthen the Chicago Chapter is through the IIT Student Chapter.

I am excited to work with the Chicago Board and the IIT Student leaders to host more events that are both social and educational to show students why a career as a plumbing engineer may be a good fit for them.

Thank you again for this incredible opportunity to serve on the ASPE Chicago Board.

VICE PRESIDENT, LEGISLATIVE

2014 State of Illinois Plumbing Code.

After a long period in the making, an updated version of the State of Illinois Plumbing Code is being published with an entire set of new graphics in the appendix sections. Note that not the *entire* code is changing, it is happening one section, and/or paragraph at the time.

Some of these changes are:

Section 890.1590 Combination Waste and Vent (Floor and Hub Drains Only)

- a. *The waste piping and trap in a combination waste and end-vented (both ends) system shall be a minimum of 4 inches in diameter. The vents in the system shall be a minimum of **3 inches in diameter**. Only one floor drain shall be connected to each branch of a combination waste and vent.*

Section 890.1020 Material and Size

- a. *Indirect waste pipe sizes shall be the same as the fixture outlets, but at least three-fourths (3/4) inch. **(This means no more 1/2" condensation drainage)***

Section 890.1130 Protection of Potable Water

- e) **Prohibited Connections** ***(In my opinion, an odd location for a code required device)***
 - 4. *A potable water line to a single wall refrigerant condenser shall be provided with a backflow preventer complying with ASSE 1012 or 1013.***(Water supply for all Electric water coolers must be provided with this BFP)**

Section 890.1230 Safety Devices

- b) **Pressure and Temperature Relief Valves**
 - 2. **Temperature Relief Valves.** *Temperature relief valves shall bear the **Canadian Standard Association (CSA)** relief rating, expressed in British Thermal Units (BTU) of heat input per hour, for the equipment served. They shall be installed so that the temperature-sensing element is immersed in the hottest water within the top 6 inches of the tank. The valve shall be set to open full when the stored water temperature is 210 degrees Fahrenheit.*

We will keep a close look on these changes as they become official.

ADMINISTRATIVE SECRETARY

Greetings Members,

Here we are in June: out of the freezer and into the heater. We can now start to enjoy the warmer weather activities, like the **ASPE Golf Outing** at Hilldale Golf Course on Friday June 20th, and the **ASPE Chicago Family Picnic** on Saturday, Aug 9, 2014. This information and additional activities are available on our website www.chicago.aspe.org

Last month's meeting had over 50 members in attendance to enjoy the manufacture spotlight by Deery-Pardue, the main presentation by Global Vision Inc. and the 50/50 raffle. The raffle raised \$160, half of which benefitted Ronald McDonald House Charities. The other \$80 went to Ed Kedzie from Retired Engineering. Members attending voted in Delegates for the ASPE National Convention and a new Vice President of Education. We welcome Matt Pardue as the new VP-Education (please give Matt a round of applause).

As I close, here is a quick informational fun fact: there are approximately one million miles of water pipeline and aqueducts in the United States and Canada, enough to circle Earth 40 times! Also, the first water pipes in the US were made from wood - bored logs that were charred with fire. How cool is that?
