

Chicago ASPENEWS

Celebrating 50 years of excellence!

Chicago Regional Chapter of the American Society of Plumbing Engineers
Vol. 51, No. 9 May 2020

Chicago Chapter General Meeting Thursday, May 21, 2020

*The Chicago ASPE Chapter's
May meeting is going virtual!*

VIRTUAL AGENDA

12:00pm Virtual Cocktail Hour Sponsored By:

12:00pm—1:00pm **Main Presentation:** Grease Production Sizing for Grease Interceptors: Satisfying Plumbing/Pretreatment Requirements + Achieving Proper Pump-Out Frequency by Eric Thompson from Schier Products (0.1 CEUs Available!)

Note: You MUST sign into the ASPE Education website first if you want to obtain CEU credit. This will also provide access to the zoom meeting:
<https://education.aspe.org/products/chicago-chapter-meeting-grease-production-sizing-for-grease-interceptors-may-2020>

If you do not need or want ASPE CEU credits, you can join the meeting directly through Zoom with this Zoom ID: 81799232885, and link: <https://zoom.us/join>

Please see VP Technical, Scott Jagodzinski's article further in this newsletter for additional information on the speaker and registering for our virtual meeting!!

Chicago ASPENews

2019-2020 Preliminary ASPE Chicago Meeting Schedule

Date	Technical Presentation & Manufacturer Spotlight	CEU	Location
September 19, 2019	Presentation Topic: Solar Thermal Domestic Water Systems Speaker: Steve Lipsey with R.C. Sales Mfr Spotlight: TBD Speaker: TBD	0.1	Venuti's 2251 W. Lake Street Addison, IL
October 17, 2019	Presentation Topic: Engineered Devices vs. Legionella Speaker: Craig Boyce with Kemper Valves Mfr Spotlight: Sloan Flushmate Speaker: KC Akalaonu with Sloan Flushmate	0.1	Westwood Tavern & Tap 1385 N. Meacham Rd. Schaumburg, IL
October 24-27, 2019	ASPE Technical Symposium Pittsburgh, PA	Several Hours Available	Wyndham Grand Pittsburgh 600 Commonwealth Place Pittsburgh, PA 15222
November 21, 2019	Presentation Topic: Emerging Trends Impacting Potable Water Systems Speaker: Ryan Wohlfarth with Georg Fischer Piping Mfr Spotlight: NU-Flow Midwest Speaker: Dave Wiley with NU-Flow	0.1	The Berghoff 17 W. Adams Street Chicago, IL
December 12, 2019	Booster Night Holiday Party & Casino Night	N/A	La Villa Restaurant 3632 N Pulaski Rd Chicago, IL
January 16, 2020	Presentation Topic: Conversation/ Discussion with Local Plumbing Plan Reviewer/Plumbing Inspector Speaker: George Swietczak Mfr Spotlight: Lochinvar Speaker: Trevor McDougall	0.1	Venuti's 2251 W. Lake Street Addison, IL
February 20, 2020	Presentation Topic: Intelligent Water Technologies Speaker: Ray Elliott with I-Con Mfr Spotlight: I-Con Speaker: Ray Elliott with I-Con	0.1	Westwood Tavern & Tap 1385 N. Meacham Rd. Schaumburg, IL
March 20, 2020	ASPE Chicago Product Show and Technical Seminars Co-located with EPIC Drury Lane Conference Center, Oakbrook Terrace, IL	0.4	Drury Lane Conference Center, Oakbrook Terrace, IL
April 16, 2020	Presentation Topic: Water Treatment Speaker: Jerry Seconabe with Aqua Rex Mfr Spotlight: NIBCO Speaker: Aaron Kilburg with NIBCO	0.1	Club Casa (at Golf Center) 353 N. River Rd Des Plaines, IL
May 21, 2020	Presentation Topic: Grease Production Sizing for Grease Interceptors: satisfying plumbing/pretreatment requirements + achieving proper pump-out frequency Speaker: Charlie Ismert with Schier Products	0.1	Virtual Zoom Meeting
TBD	Annual Golf Outing	N/A	Hilldale Golf Club 1625 Ardwick Drive Hoffman Estates

If you would like to present any of these topics or become a meeting sponsor, please contact Scott Jagodzinski at aspe.chicago.vptech@gmail.com.

PRESIDENT'S MESSAGE

I hope this message finds everyone and their families healthy, both physically and mentally. It goes without saying that most people's lives have been turned upside down since our March newsletter was issued. COVID-19 has changed the way a lot of us work and interact. ASPE Chicago Chapter will continue to pivot in the way we function to try and accommodate our members during these trying times.

New 'Members Only Benefits' Being Rolled Out!

We are rolling out a 'members only' section of our ASPE Chicago Chapter website that we think you will find useful. In the very near future active members will be emailed instructions on how to access the following:

A Code Official Directory: As the name suggests, this is a list of many code officials including their contact info. Members will be able to comment on the file and suggest revisions. Please see the VP Legislative section of this newsletter for more info.

ASPE Chicago Member Contact List: We have gotten back to issuing these on a quarterly basis. Last one was sent out on 4/9/2020.

Affiliate Member Contacts for importing into your MS Outlook: We have been collecting contact info from our ASPE Chicago Affiliate members. These contacts can be downloaded and imported to your Microsoft Outlook software. The best part is that these are searchable and we have been directing affiliates to include the products and manufacturers they represent. Think of this as the 21st century version of the Manufacturer's Product List we used to have, (kudos to Ken Cutler for starting that waaay back when!). Please see the VP Membership section of this newsletter for more info.

Virtual Chapter Meeting With Technical Session May 21st, 12:00 -1:00 PM

We will be holding our May chapter meeting virtually. This will kick off on Thursday, May 21 at 12:00 PM sharp. I will give a brief overview of the Chapter's status then handing it over to our VP Technical. Our Technical Presentation will be "Grease Production Sizing for Grease Interceptors" provided by Eric Thompson, International Territory Manager at Schier Products. Please see the VP Technical section of this newsletter for more info.

ASPE Chicago Chapter Golf Outing Update

As many of you are probably aware, many golf courses have opened up to the public. At the time of this writing golf courses are apparently not allowed to have large group gatherings. As such **we are postponing the June 19th Chapter Golf Outing with hopes we can reschedule it to a later date.** We will advise when more information becomes available.

ASPE Chicago Product Show Update

We had to pull the plug on the March Product Show due to the pandemic. It seems unlikely that we will have a product show this year. A HUGE THANKS to many affiliates and their manufacturer's for leaving their ASPE Pledge money as a donation despite this event not coming to fruition. Your contributions are very much appreciated.

ASPE Region 5 Meeting Being Held Virtually

Rather than travel to Minneapolis, the ASPE Region 5 meeting will be held virtually this June.

PRESIDENT'S MESSAGE, CONTINUED...

ASPE National Hosting A Plumbing/Hydronic Piping Specific Revit Workshop

Due to travel and group restrictions from COVID-19 the 2020 Revit workshops are now being held remotely.

There are 3 dates still available for a 7 hour Revit training course designed for mechanical / plumbing designers to help you take your Revit 2020 projects to the next level. If you want to know how to get the project started and understand how to maximize your workflow, this is the class for you. They will discuss how to get started properly to optimize your project workflow. Members and Nonmembers are \$250 & \$475, respectively. For more details click here:

<https://education.aspe.org/RevitWorkshops>

2020 ASPE Convention & Expo

At the time of this writing the 2020 ASPE Convention & Expo is still planning to move forward. This event is being held in New Orleans on September 11-16, latest event details found here:

https://expo.aspe.org/?utm_source=aspe&utm_medium=email&utm_campaign=attpros_eml1.

A Free Webinar for ASPE Members is Being Held Next Week

On May 14 at 1 p.m. CDT, CPVC for Commercial Plumbing and Hydronic HVAC Applications, sponsored by Corzan Piping Systems, will address the most common missteps and errors regarding the design and installation of these systems to help prevent failure and maximize longevity. Both webinars offer 0.1 CEU.

https://www.aspe.org/pipeline/free-webinar-for-aspe-members-on-cpvc-to-be-held-may-14/?_zs=hDwia&_zl=dao52

There Are Also Four Free Webinars Being Provided By IAPMO Related to COVID-19

The International Association of Plumbing and Mechanical Officials (IAPMO) is pleased to announce its upcoming "After COVID-19" webinar series. This free series of webinars is being presented to provide useful, practical information in an effort to assist in the safer reopening of buildings as COVID-19 "stay-at-home" restrictions are eased. The series is designed to provide jurisdictions, health departments, building owners and managers, and contractors with detailed information and guidance on reopening the various building types.

<https://www.iapmo.org/webinars/covid-webinars>

Society Dues Compassion Waiver:

For those of you that might be out of work, paying to keep your ASPE membership might not fit into your budget. If that is the case please reach out to me directly. We may be able to keep your membership active by submitting a Society Dues Compassion Waiver through ASPE National..

<https://www.aspe.org/membership-global-community/membership/members-only/application-for-compassion-waiver-of-society-dues/>

Making the most of these times

I wanted to offer up some things that have been helping me cope during this challenging time. While I've certainly had my fill of beers, I find that only goes so far after a busy day at the home "office". I have found it crucial to fit in some form of exercise into my daily routine. Another easily overlooked item is meditation. There are many apps for your phone, books, etc. that may be worth looking into if you find yourself struggling to find a clear head. If you and your spouse are working from home while tag teaming an energetic child who no longer has pre-school, then I understand what you are going through. That said it could always be worse. Make the most of it my friends! See you virtually on May 21st.

Thank You,

Chris Sbarbaro, PE, GPD, CPD, LEED AP BD+C

Chicago Chapter President

VICE PRESIDENT, TECHNICAL: TECHNICALLY SPEAKING

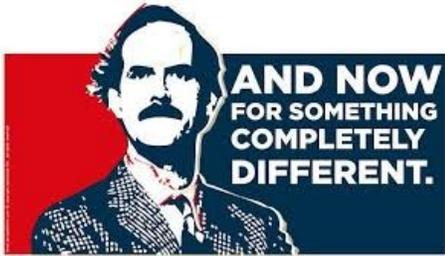

Hello ASPE Chicago Chapter Members.

So, it has come down to this.

This month as we strive to hold on to our sanity throughout all the stay at home orders, social distancing and facial protection we need some semblance of our prior normalcy.

That being said, we are bringing back to our Chicago Chapter ASPE members a new technical presentation. As previously listed in our newsletter calendar for this month we had slotted to bring you the fascinating world of grease interceptors-how to size them and some of the do's and don'ts of proper designs. And with a little change in venue we are right back at it.

Monty Python said it best:

May Chapter Meeting Presentation Info:

This month we are heading to **Virtual Reality** for a **ZOOM** meeting.

Cost for this meeting is only your time. Food is BYOF.

Pants are optional but recommended.

The format will be quite different from what we typically do and there are a few steps to ensure you get connected. This will be a lunch hour presentation so mark your calendars for the date and time.

- You will still need to register to access the meeting. And CEU's will be provided for anyone who desires, and this will automatically show up on your account.
- If you are an active ASPE member please use this link to register for the meeting. You will need to sign into the ASPE Education website first. <https://education.aspe.org/products/chicago-chapter-meeting-grease-production-sizing-for-grease-interceptors-may-2020>
- If you are having trouble logging in to the meeting or if you are not a current member of ASPE, please use the link below. You will need to create an account, so this must be done at least 3 days in advance of the meeting, to ensure you are able to get your account set up and we can assist if there are any issues. <https://education.aspe.org/moreinfo>
- Our meeting will occur at **12:00 PM, Thursday May 21**. I have the duration of the meeting set for 75 minutes to allow for the presentation as well as questions following.
- All attendees are required to complete a program evaluation in order to receive your CEU. If you do not fill out the evaluation you will not be credited, and I will not be able to help you.
- The meeting will not be recorded so please be present and on time.
- You can test your computer, or phone, beforehand to check if your device is compatible with Zoom software following this link. Please note that you will have to download software/app for best results. <https://zoom.us/test>

Continued on Next Page...

VICE PRESIDENT, TECHNICAL: TECHNICALLY SPEAKING, CONTINUED...

- When you enter the meeting, you will be automatically muted and will not be able to speak. A Q&A box will be available to type any questions you have and I will moderate to pass questions along to the speaker.
- You can log into the meeting as early as 15 minutes in advance.
- Primary login should be taken through the ASPE Education links above to bypass all the zoom login requirements however, as a last resort the Zoom ID is 81799232885. You can log in through this link where you will enter the code. <https://zoom.us/join>

Title of presentation: Grease Production Sizing for Grease Interceptors: Satisfying Plumbing/Pretreatment Requirements + Achieving Proper Pump-Out Frequency by Eric Thompson from Schier Products

The following content will be reviewed:

- Utilizing a grease sizing calculator
- Do's and Don'ts of grease interceptor sizing
- How Often should I clean this out?

Bio:

Eric Thompson is a Territory Manager for Schier Products and hails out of Edwardsville, Kansas. He has worked in the plumbing industry for over 30 years in various roles including contractor, distributor, manufacturer's representative and as a manufacturer. For the past 2 years he has been with Schier Products working with wholesalers, contractors, engineers, inspectors and owners to bring lifetime guaranteed grease interceptor solutions to the food service industry.

It is never too early to think about our 2020/2021 season. If you have an idea for a technical presentation you want to see, or you have a great technical session you want to present, please reach out to me and we can look to get you or your topic on the list for next season. Slots will fill up quickly. We are also looking to lock in Manufacturer Spotlights and Cocktail Hour sponsors as well.

Thank You,

Scott Jagodzinski, GPD, CPD
Chicago Chapter Vice President, Technical

TAKE THE FIELD.

VICE PRESIDENT, LEGISLATIVE

Greetings Chicago Chapter Members!

I hope this month's newsletter finds you and your family in good health and employed! I had no clue when I said, "Welcome to March Madness!" in our last newsletter, that the popular phrase was about to take on a whole new meaning with COVID-19. Hopefully, we will return to some sense of normalcy soon so that we can gather as a Chapter once again and enjoy some comradery that is sorely needed right now. Until then, we will all have to make the best of the situation and move onward.

Illinois Code Official Directory

The last few months we have been working on developing an Illinois Code Official Directory. This is an effort to hopefully save you some valuable time finding contact information for Plumbing and Fire Protection Code Officials serving areas in Illinois where you may have projects. Thanks to the amazing efforts of our Webmaster, Jeff Gallagher, the directory can be accessed through Chicago.ASPE.org by going to the new "Members Only" tab where you will select "IL Code Official Directory."

To bring more value to active members of this Chapter, this will be one of a few password protected member benefits we'll be offering. When prompted, enter the password that will be e-blasted to you soon.

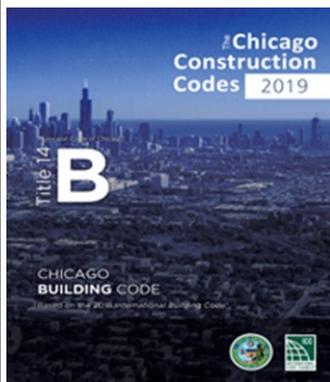

Once you login, the Illinois Code Official Directory will be available for your use. You can toggle between the Plumbing and Fire Code Official sheets by scrolling to the bottom of the page and selecting the tab you would like to use.

If you find that information in the directory is inaccurate, or you have information that is missing, please click on the link at the top of the directory to submit the information so that we may update the directory. In the process of creating the directory, I have found that there has been a great deal of changes in the last year due to retirements and job vacancies that are waiting to be filled. Our goal is to keep this directory as up to date as possible, so your assistance in that regard would be greatly appreciated!

Code News

Chicago Plumbing Code: As mentioned in the last newsletter, the City of Chicago Deputy Building Commissioner, Grant Ulrich, does not expect the process to adopt the International Plumbing Code to the City of Chicago until 2021. The process to adopt the Fuel Gas and Mechanical Codes is expected to begin sometime this summer. The process to adopt the codes will be like the process used for the new building code. This involves regularly scheduled meetings with a large group of stakeholders, approximately 70 people made up of architects, engineers, labor unions, etc. In addition, technical subcommittees were formed to work on different sections of the code. Mr. Ulrich indicated that ASPE would be invited to be an active participant in the adoption of the IPC. Please reach out to me aspe.chicago.vpl@gmail.com if you would like to be considered for these committees when the time comes.

Continued on Next Page...

VICE PRESIDENT, LEGISLATIVE, CONTINUED...

Additionally, Mr. Ulrich has asked that members submit the Top 5 items you like about the current code and the Top 5 items we would like to see changed in the code along with your reasoning. I'm asking that you please submit those comments and any other suggestions you may have to myself and the DOBCommissioner@cityofchicago.org. We are working with the Society to develop our own list to submit on behalf of ASPE and would like to get a feel from our Chapter for what changes you would like to see or not see.

Chicago Building Code: When working on new projects in the City of Chicago, please make sure to verify which code the project will be submitted under. The new Chicago Building Code Title 14B, is currently optional and will become mandatory for all permit applications started on or after August 1, 2020. You are not permitted to mix and match the old and new codes.

Chicago Fire Protection – Residential Buildings UPDATE: As of January 1, 2020, sprinklers are required in all new residential buildings with 4 or more dwelling units, regardless of the old or new building code. HOWEVER, while working on a current project an exception to this requirement was discovered in Title 14B. Section 903.2.8 reads as follows:

903.2.8 Group R. An *automatic sprinkler system* installed in accordance with Section 903.3 shall be provided throughout all buildings with a Group R *fire area*.

Exceptions:

1. Buildings of Group R-5 occupancy
2. Buildings of Group R-2 occupancy not more than 4 stories above *grade plane* where each *fire area* contains not more than 2 *dwelling units*, and all required vertical *exits* are interior *exit stairways*.

I discussed Exception #2 with the Chicago Chief Fire Prevention Engineer, John Javorka, in order to make sure there was not a contradiction to what the Department of Buildings had previously published on their website as part of the Code Modernization Timeline. Mr. Javorka directed me to Section 907.7 Fire Areas, which reads as follows:

901.7 Fire Areas. Where buildings, or portions thereof, are divided into *fire areas* so as not to exceed the limits established for requiring a *fire protection system* in accordance with this chapter, such *fire areas* shall be separated by *fire walls* constructed in accordance with Section 706, *fire barriers* constructed in accordance with Section 707, or *horizontal assemblies* constructed in accordance with Section 711, or a combination thereof having a fire-resistance rating of not less than that determined in accordance with Section 707.3.10.

Mr. Javorka stated that the exception is permitted as long as there are no more than 2 dwelling units between fire walls with a 4-hour rating along with complying with the other requirements of 903.2.8.

Illinois Plumbing Code: Now is the time to make yourself heard and stay engaged! If you have any Illinois Plumbing Code revision proposals for any section of the code, you may direct those proposals to Brian Cox, the IDPH Plumbing & Water Quality Program Manager via email to brian.cox@illinois.gov or by phone (217) 524-0791. You may also submit any proposals to myself and I will forward them on as part of a larger collection of proposed changes as the committee meetings are scheduled.

The next Plumbing Advisory Council (PCAC) Meeting is still scheduled for June 3, 2020 in Springfield, IL. I expect we will find out in a couple weeks whether or not this meeting will go on as scheduled depending on what restrictions Governor Pritzker extends beyond the May 30th date. You can stay up to date on scheduled meetings and associated agendas by going here <http://www.dph.illinois.gov/events>

Please reach out to me if you have any code questions, code updates, ideas for topics of discussion, or you are looking for any interpretations and I will try to include pertinent information in future newsletters.

Stay safe and healthy and keep those hands clean!

Chris Rohan, CPD

Chicago Chapter Vice President, Legislative

VICE PRESIDENT, MEMBERSHIP / PRODUCT SHOW CHAIRMAN

Greeting Members,

I hope everyone is healthy during this crazy time. I know that I am getting a little stir crazy working from home and hope to return to some normalcy soon.

All of the Line cards have been updated on the Chicago ASPE website that have been provided to me. If you would like to have your line card updated please send them to me and I will get them updated.

This year's product show has been cancelled due to the COVID-19 Pandemic. The PHCC will not be holding a show this year leaving ASPE Chicago without a show. I have issued an email to all Pledge members outlining options for how they would like us to handle their Pledge money. If you have not gotten back to me yet please follow up with an email so we know how to direct these funds.

We will be rolling out our Affiliate MS Outlook database via the website in the near future. You will be issued a log in to download all of the contacts to import to your Outlook as well as access the code directory. This will allow you to search for a piece of equipment in your outlook search bar and direct you to what manufacture sells this equipment and the contact information of the representative of that company.

Stay Healthy,

Justin Wroblewski, CPDT

Chicago Chapter Vice President, Membership / Product Show Chairman

ASPE.Chicago.VPM@gmail.com / aspe.chicago.pschairman@gmail.com / Jwroblewski@ams-pmt.com

VICE PRESIDENT, AFFILIATE

Greetings All ASPE Members,

I hope this newsletter finds everyone in good health and safe. Typically, we are enjoying each other's company at ASPE Meetings, outings, and lunches and looking forward to our Annual Golf outing in June which typically ends our ASPE season. As you have heard or read prior to reading this, the golf outing unfortunately has been postponed, hopefully for our sanity, our businesses, and for our families we have some kind of safe return to normalcy in the next few weeks.

Not to keep bringing up things you have heard over and over, but we will get through this together! Let's all make sure ASPE supporters are continuing to support our engineering community and vice versa.

As the voice of the Affiliates, please make sure you reach out to me if there is anything I can do!

Stay Safe and Healthy!

Darren Rich

Chicago Chapter Vice President, Affiliate

P# 847.875.8659 aspe.chicago.vpaff@gmail.com

ADMINISTRATIVE SECRETARY

Greetings Members,

As we all try to settle into a “new normal,” I am grateful to know that there are many of my family, friends, and associates that have safely avoided the COVID-19 illness, yet recognize the sadness that many of us have as this pandemic continues to hit closer to home. I feel like I have been living at O’Hare Airport where everything is postponed or canceled. While this can be an inconvenience, I am amazed by how so much of our country is pulling together to show kindness, courage and commitment to getting through this.

The ASPE Chicago Board Members have been working behind the scenes to get a meeting process established for May and assessing what the future may look like. We are all missing that 3rd Thursday of each month to discuss business and personal accomplishments, beverages, breaking bread and learning something new with the industries ever changing technical advancements.

I would like to remind you that ASPE Connect is available at the ASPE National website. All current members can sign up and if you are not a current ASPE Member and want to check it out there is a 30 day trial, just click here for the hyperlink. <https://connect.aspe.org/home>

I look forward to seeing you all soon, thank you for reading and have a great day!

Thanks,

David Erickson

Chicago Chapter Administrative Secretary

ASPE CHICAGO AMBASSADOR PROGRAM KEEPS ON ROLLING

The ASPE Chicago Ambassador Program continues to be a success (except when yours truly keeps forgetting to make phone calls to new members). Many of you in ASPE Chicago have been a member since....how many of you can’t remember when you even joined?!?! I am one of those people myself.

How many of you have no idea what life was like before ASPE? Yeah, maybe I am making it sound like a big deal. ASPE has always been an excellent source of education, a voice in plumbing legislation, AND a place where many of us have developed an unbelievable network of industry professionals, colleagues, and friends.

Did you know that ASPE loses up to 80% of its new members after the first year? Yeah! Only about two of every ten new ASPE members renew for a second year. Crazy, right? That is why the Ambassador program was born. We are here to reach out to the new Chicago Chapter members to help them feel welcome and to help inspire them to come out to a meeting (or nine). We feel that if a new member is made to feel welcome and a part of the Chapter, they are more likely to keep renewing their membership.

Currently, your Ambassadors are:

- Julius Ballanco
- Natalia Dankanich
- Joe Ficek
- Phill Kroll
- Mark Mannarelli
- Jason McDonald
- Frank Sanchez

If you want to be part of this fantastic program, please drop me a line. See you when we can meet again!

Jason McDonald

Chicago Chapter Ambassador
aspe.chicago.ambassador@gmail.com, 847.316.9258

ORDER YOUR ASPE CHICAGO BADGE!

Are you tired of being the only one at the meeting without a fancy ASPE Chicago name badge? Do you want to update your badge so it has your new name or company?

The Chicago Chapter is proud to offer once again our badge promotion!

Costs:

Badges: \$15
Shipping (optional): \$5

Make checks payable to "ASPE Chicago Chapter" and either drop off your check at one of the Chapter Meetings or mail it to:

**ASPE Chicago Chapter
c/o Mark Mannarelli/Syska Hennessy Group
330 N. Wabash Ave, Ste. 1505
Chicago, IL 60611**

Name and Company will be printed on the badge as listed below - if you leave blanks or list other names, they WILL be printed on the badge. If you would like your badge mailed to you, please include this information. You can mail or email this form. Badge order will not be processed until payment is received. Send emails to mannarelligm@gmail.com

Please indicate your preferences:

Name: _____
Company: _____

Fastener style (please circle one):

- Clip
- Magnet

This promotion is for ASPE Chicago members only!

CORRESPONDING SECRETARY: INDUSTRY NEWS & AYP LIAISON

Hello All, I hope this newsletter finds you well!

I have always looked forward to getting together with everyone on our 3rd Thursday Meetings. As an affiliate we don't typically NEED the CEUs or to see what our newest competitor is showing the ASPE chapter that night. I believe most members come for the genuine love for the people involved in the chapter as well as the chance to see a new face each time. During this time and after I believe that unchangeable characteristic about ASPE Chicago will bring us all back like nothing changed (Minus a Mask or Twenty).

For anyone interested in Leadership Development, ASPE is offering a FREE 3-Part Webinar Series for ASPE Members. It is presented by Christina Rowe of The Collaborative LLC. I would highly encourage all with some extra time to invest in themselves to take advantage of this HUGE benefit. If there are any Members, Full to Affiliate struggling, please reach out so we as a community can find a way to help out! I wish you all nothing but the best! Click [HERE](#) to register for the Leadership Webinar presented by ASPE Young Professionals (AYP)!
