THE ONLY NAME YOU NEED TO KNOW FOR PUMPS

Residential
* Sump or sewage (10 Year Warranty)
* Battery back up
* Mini Booster package

Commercial
* Sump or sewage
* Condensate and Boiler feed
* Inline
* Booster packages
* Break Tank Packages

Industrial
* Sump or sewage
* Vertical turbines
* Split case
* ANSI
* Diaphragm
* Sanitary
* Multi stage

WE CAN REPAIR AND REBUILD ALL MAKES AND SIZES

Tramco Pump Company
1500 W. Adams Street
Chicago, IL 60607

www.tramcopump.com
Manufacture of vertical column sump and sewage pumps, condensate return units, boiler feed units, break tank systems, water pressure booster systems, liquid level float controls, basin covers and O.E.M. special products for the industrial and commercial markets.

**VIKING PUMP**

World leader in the positive displacement rotary pumps for thin or thick liquids. Internal gear, spur gear, bi-rotor and tri-rotor. Designs available in cast iron, steel, composite materials, alloys and food grade stainless steel. Sealless magnetic drives also available. Basket strainers available in sizes from 3/4" to 8".

**SANDPIPER**

Air powered double diaphragm pumps in 1/4" to 4" with ball and flap type check valves. Handles solids up to 3". Available in standard or spill containment configurations. Materials of cast iron, aluminum, stainless steel, polypropylene, kynar, and food grade materials. Batching systems and stroke counter available. Custom filter press pumping systems available.

**BERKELEY**

Multi-stage centrifugal pumps for high pressure industrial, commercial municipal and agricultural applications. Available in cast iron and stainless steel. Specializing in machine tool coolant applications.

**Griswold Pump Company**

ANSI centrifugal pumps for the process industry in ductile iron, 316SS, CD4 and alloy 20. Also general service end suction pumps.

**POLARIS PUMPS**

Designed to handle the toughest services in a broad spectrum of solids handling and slurry applications, the wet-end components including the strainer are made from abrasion resistant High-Chrome white iron for maximum wear life. Polaris pumps feature a wide selection of wet end configuration and motor combinations.

**Myers**

High pressure piston and plunger. Submersible sump, sewage and grinder pumps for commercial and industrial use.

*Authorized factory distributor for all brands listed above.*
